File Prep Guidelines

SIZING & RESOLUTION
Design at the "Bleed Egde" Size and 300 dpi.

COLOR
Design in CMYK Color.
Warning: We do not check to see whether
or not you have used the correct color mode.
If CMYK is not used, there will be a color-shift
in the print that may or may not be noticable.

SPOT COLORS
If there are Pantone colors that must be matched,
then Color Match Service must be added to the order,
and the art file must be an Adobe Illustrator AI File
with the spot colors in the file and fonts outlined.

ACCEPTABLE FILE TYPES

PDF, AI, EPS
Fonts must be outlined. Images should be embedded

TIFF, PSD, JPG
Must be flattened

TEMPLATE WARNING
Before saving the print file that will be sent to us,
Turn Off or Delete the template lines & notes so
that they are not visible. If they are visible, they
will be printed as part of your design. We are not
responsible for an error such as this.
