## READ!

**Printed Face Mask**
SKU: **FM-DYE-WSD**

### ❶

Overall Artboard Size of this template is 9.8" W x 7.25" H Do not change this size.

Layout the design at 100% size and 150 dpi or 150 ppi.

Layout the design in CMYK Color. Do not design in RGB.

### ❷

Make sure all black in the design is Rich Black CMYK 75 / 75 / 75 / 100. If black is not set to these values, the black in the print **may** be less than excellent or have a dark colored hue.
We do not check that the black is set to these values before printing.

If there are Pantone Colors, those colors must be built into the art file AND file must be an Adobe Illustrator PDF that is editable, or an AI file.

### ❸

Green Line is the **Safe Line** 8.4"W x 5.76"H Everything inside Green Line is in Safe Zone. Place all art that MUST be visible inside of the Green Line. It is okay if art touches the green line as long as it is inside of the line.

**Blue Line** is an outline of the Face Mask. Art that goes outide the *green* line and to this blue line will be printed, but some of this art will be trimmed away. Fill in your design so that the background art bleeds up to, or outside of, the blue line, BUT still make sure that the portion of the art that must be visible all remains inside of the green line.

### ❹

If there are Pantone Colors, art file must be an Adobe Illustrator PDF or AI file

Save file as PDF with images embedded (not linked) and fonts outlined.

Other acceptable file types are:

AI or EPS with images embedded (not linked) and fonts outlined.

TIFF, PSD, JPG flattened.
